Hampshire, UK

The perfect location for finding that balance between city, coast and countryside.

Location

Hampshire is a large county on the South East Coast of England. It's biggest cities are Southampton and Portsmouth. Southampton has a large port where many cruise ships depart, in addition to having the New Forest National Park on your door step. Within 10 minutes of Portsmouth, you can find yourself on the beach and enjoying an array of shops in Gunwharf Quays.

Transport

Southampton has its own airport which flies to other UK cities and across Europe—great for the summer holidays. In terms of public transport, Southampton and Portsmouth have excellent and regular bus links and also local train stations. London is only 1 hour 30 minutes on a direct train from Southampton.

Entertainment

Both Southampton and Portsmouth have a great nightlife with lots of bars, restaurants and pubs to go to. Southampton has a local theatre and cinema and both cities have large football clubs.

Local Schools

There is a real mix of schools in the area from those in small villages, to large inner city schools. Our Hampshire office works with Primary, Secondary and SEN schools.
